Introduction

The ProQual Level 2 Award in Ear Candling provides a nationally recognised qualification for those working in the beauty industry, and who wish to develop and demonstrate their competence at providing thermal auricular therapy.

The aims of this qualification are:

- To develop an understanding of ear candling.
- To demonstrate competence at carrying out ear candling, in accordance with health and safety requirements.
- To provide a progression route within the beauty industry, for those interested in providing thermal auricular therapy.

The awarding body for this qualification is ProQual AB. This qualification has been approved for delivery in England and Northern Ireland. The regulatory body for this qualification is Ofqual, and this qualification has been accredited onto the Regulated Qualification Framework (RQF), and has been published in Ofqual's Register of Qualifications.

Qualification Profile

Qualification Title:	ProQual Level 2 Award in Ear Candling
Qualification Number:	610/4463/5
Level:	Level 2
Total Qualification Time (TQT):	40 Hours
Guided Learning Hours (GLH):	32 Hours
Assessment:	Pass / Fail
	Internally assessed and verified by centre staff
	External quality assured by ProQual Verifiers
Qualification Start Date:	02/09/2024
Qualification Review Date:	01/08/2025
Next Review Due:	01/08/2028

Learner Profile

There are no formal academic entry requirements for this qualification. Centres should carry out their own initial assessment of a candidate's initial knowledge and skills.

Candidates for this qualification should either:

- Be employed in a role where they will have the opportunity to carry out a number of ear candling treatments on a range of clients.

OR

- Be enrolled with a training provider, which will enable them to carry out a number of ear candling treatments on a range of simulated or real clients.

Candidates who complete this qualification, and who wish to further develop their knowledge and skills in the beauty sector, could progress to study additional qualifications from ProQual's hair and beauty suite.

Qualification Structure

This qualification consists of **two** units. Candidates must complete both mandatory units to complete this qualification.

Unit Number	Unit Title	Level	TQT	GLH
Mandatory Units – Candidates must complete all units in this group.				
J/651/2395	Health and Safety in a Salon Environment	2	10	10
K/651/2396	Provide Ear Candling Treatments	2	30	22

Centre Requirements

Centres must be approved to deliver this qualification. If your centre is not approved to deliver this qualification, please complete and submit the **ProQual Additional Qualification Approval Form**.

Materials produced by centres to support candidates should:

- Enable them to track their achievements as they progress through the learning outcomes and assessment criteria.
- Provide information on where ProQual's policies and procedures can be viewed.
- Provide a means of enabling Internal and External Quality Assurance staff to authenticate evidence.

Certification

Candidates who achieve the requirements for this qualification will be awarded:

- A certificate listing all units achieved, and
- A certificate giving the full qualification title:

ProQual Level 2 Award in Ear Candling

Claiming certificates

Centres may claim certificates for candidates who have been registered with ProQual and who have successfully achieved the qualification. All certificates will be issued to the centre for successful candidates.

Unit certificates

If a candidate does not achieve all of the units required for a qualification, the centre may claim a unit certificate for the candidate which will list all of the units achieved.

Replacement certificates

If a replacement certificate is required a request must be made to ProQual in writing. Replacement certificates are labelled as such and are only provided when the claim has been authenticated. Refer to the Fee Schedule for details of charges for replacement.

Assessment Requirements

Each candidate is required to produce a portfolio of evidence which demonstrates their achievement of all of the learning outcomes and assessment criteria for each unit.

Evidence can include:

- Observation report by assessor
- Assignments/projects/reports
- Professional discussion
- Witness testimony
- Candidate product
- Worksheets
- Record of oral and written questioning
- Recognition of Prior Learning

Candidates must demonstrate the level of competence described in the units. Assessment is the process of measuring a candidate's skill, knowledge and understanding against the standards set in the qualification.

Centre staff assessing this qualification must be **occupationally competent** and qualified to make assessment decisions. Assessors who are suitably qualified may hold a qualification such as, but not limited to:

- ProQual Level 3 Certificate in Teaching, Training and Assessment.
- ProQual Level 3 Award in Education and Training.
- ProQual Level 3 Award in Assessing Competence in the Work Environment.
(Suitable for assessment taking place in a working salon only.)
- ProQual Level 3 Award in Assessing Vocational Achievement.
(Suitable for assessment taking place in a simulated training environment only.)

Candidate portfolios must be internally verified by centre staff who are **occupationally knowledgeable** and qualified to make quality assurance decisions. Internal verifiers who are suitably qualified may hold a qualification such as:

- ProQual Level 4 Award in the Internal QA of Assessment Processes and Practice.
- ProQual Level 4 Certificate in Leading the Internal QA of Assessment Processes and Practice.

Occupationally competent means capable of carrying out the full requirements contained within a unit. **Occupationally knowledgeable** means possessing relevant knowledge and understanding.

Enquiries, Appeals and Adjustments

Adjustments to standard assessment arrangements are made on the individual needs of candidates. ProQual's Reasonable Adjustments Policy and Special Consideration Policy sets out the steps to follow when implementing reasonable adjustments and special considerations and the service that ProQual provides for some of these arrangements.

Centres should contact ProQual for further information or queries about the contents of the policy.

All enquiries relating to assessment or other decisions should be dealt with by centres, with reference to ProQual's Enquiries and Appeals Procedures.

Units – Learning Outcomes and Assessment Criteria

Title:		Health and Safety in a Salon Environment		Level:	2
Unit Number:	J/651/2395	TQT:	10	GLH:	10
Learning Outcomes <i>The learner will be able to:</i>		Assessment Criteria <i>The learner can:</i>			
1	Prepare salon areas for treatment.	1.1	Identify common hazards and risks in a salon environment.		
		1.2	State the health and safety requirements for practitioners carrying out beauty treatments, including but not limited to: • Health and Safety at Work Act. • The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR). • Manual Handling Operations Regulations. • Control of Substances Hazardous to Health Regulations (COSHH).		
		1.3	Describe how to clean, disinfect and sterilise different types of tools and equipment.		
		1.4	Explain the difference between sterilisation and disinfection.		
		1.5	Explain why it is important to follow salon procedures and any given instructions when setting up tools and equipment for a given treatment.		
		1.6	Describe the required environmental conditions for a given treatment, including: • Lighting. • Heating. • Ventilation. • General Comfort.		

1	<i>Continued</i>	1.7	Explain why it is important that the above environmental conditions are provided.
		1.8	Explain why it is important to maintain personal hygiene, protection and appearance according to accepted industry and organisational standards.
		1.9	Explain the reasons and importance of keeping records of treatments.
2	Maintain salon treatment areas.	2.1	Explain how to safely dispose of waste materials and products from beauty treatments.
		2.2	Explain the requirements for re-stocking products and other items.
		2.3	Describe own responsibilities in relation to the storage of: • Equipment. • Products. • Client Records.
		2.4	Describe how the work area should be left after a treatment.
		2.5	Explain why it is important to leave the work area in the condition described above.

Additional Assessment Information

This unit is **knowledge based**. This means that evidence is expected to take the form of candidate's written work and/or records of appropriate professional discussions.

Centres may use the ProQual Level 2 Award in Ear Candling Candidate Workbook, or their own, centre devised, assignments.

This unit is a **common unit**. Centres should be aware that candidates may have completed this unit as part of another ProQual Hair and Beauty qualification and may be eligible for recognition of prior learning.

Title:		Provide Ear Candling Treatments		Level:	2
Unit Number:		K/651/2396	TQT:	30	GLH: 22
Learning Outcomes <i>The learner will be able to:</i>		Assessment Criteria <i>The learner can:</i>			
1	Understand how to prepare for ear candling treatments.	1.1	State how to prepare the following for ear candling: • Self. • Client. • Work area.		
		1.2	Explain the consultation techniques suitable for ear candling.		
		1.3	State the tools, equipment and products required for ear candling.		
		1.4	State the different types of ear candles that can be used.		
		1.5	State the contra-indications that would prevent or restrict the treatment.		
		1.6	Describe how to prepare the work area for thermal articular treatment.		
2	Understand how to provide ear candling treatments.	2.1	Describe what is meant by "professional communication and behaviour" within a salon environment.		
		2.2	Explain the importance of positioning yourself and the client correctly throughout the treatment.		
		2.3	Explain the importance of using products, tools, equipment and techniques to suit client treatment needs.		
		2.4	State how treatments can be adapted to suit client treatment needs, skin types and conditions.		

2	<i>Continued</i>	2.5	Describe how to respond to any contra-indications that occur during treatment.
		2.6	State why it is important to complete the treatment to the client's satisfaction and expectation.
		2.7	Describe why it is important to provide aftercare advice.
		2.8	Describe the structure and function of the ear.
3	Prepare for ear candling treatments.	3.1	Prepare the working area, so that it is ready for treatment.
		3.2	Prepare self for treatment.
		3.3	Prepare client for treatment.
		3.4	Carry out a consultation to identify the treatment objective, including: • Discussion and questioning. • Visual Inspection. • Examination. • Treatment Recording.
		3.5	Provide a clear explanation of recommendations to the client, including: • Modifications to the service. • Encouraging the client to seek medical advice. • Explaining why the service cannot be carried out.
		3.6	Select tools, equipment and products to suit the needs of the treatment.

4	Provide ear candling treatments.	4.1	Communicate and behave in a professional manner.
		4.2	Ensure that all health and safety working practices are followed.
		4.3	Position self and client correctly throughout the treatment.
		4.4	Use tools, equipment and, products correctly and as required throughout the treatment.
		4.5	Complete the service to the satisfaction and expectation of the client.
		4.6	Record the results of the treatment in a suitable manner, as required by employer or training provider.
		4.7	Provide the client with suitable aftercare advice, including recommendation of appropriate follow-on treatments.

Additional Assessment Information

Learning Outcomes 1 and 2 are **knowledge based**. This means that evidence is expected to take the form of candidate's written work and/or records of appropriate professional discussions.

Learning Outcomes 3 and 4 are **competency based**. This means that the candidate is expected to perform the tasks, and demonstrate the level of competence, outlined in the assessment criteria. It is expected that evidence will be a combination following:

- Photographic and/or video evidence of the candidate's practical work.
- Assessor's observation report.
- Expert witness testimony.
- Candidate reflection on own practical work.

An observation report and witness testimony are differentiated as follows:

- An **assessor's report** is completed by a qualified assessor who observes the candidate carrying out practical work. The assessor will make assessment decisions as they observe and record these in the report, alongside a commentary of what they observe.
- A **witness statement** is completed by a suitably qualified or experienced expert who observes the candidate carrying out practical work. The witness statement will contain **only** a commentary of what has been observed. An assessor must then use the witness statement, alongside any additional evidence to make assessment decisions.
- In all cases, an assessor's report is preferred as evidence over a witness statement; as it is always better for an assessor to observe a candidate live.

Assessors may wish use to use a checklist or evidence matrix to organise and track the assessment outcomes that have been achieved, but these **do not**, in themselves, constitute evidence of achievement.

An assessor's report or witness statement alone is unlikely to be sufficient evidence of achievement. Reports and statements should always be accompanied by photographic and/or video evidence.

Centres may use the ProQual 2 Award in Ear Candling Candidate Workbook to organise candidate evidence or may use their own portfolio templates.

It is expected that competence of each assessment criteria will be observed **at least twice** before it is awarded.

Evidence of practical skills **may** be simulated, provided:

- The simulated environment matches, as close as possible, the real-world working environment.
- The candidate performs any assessed treatment on a live model.

Appendix One – Command Verb Definitions

The table below explains what is expected from each **command verb** used in an assessment objective. Not all verbs are used in this specification

Apply	Use existing knowledge or skills in a new or different context.
Analyse	Break a larger subject into smaller parts, examine them in detail and show how these parts are related to each other. This may be supported by reference to current research or theories.
Classify	Organise information according to specific criteria.
Compare	Examine subjects in detail, giving the similarities and differences.
Critically Compare	As with compare, but extended to include pros and cons of the subject. There may or may not be a conclusion or recommendation as appropriate.
Describe	Provide detailed, factual information about a subject.
Discuss	Give a detailed account of a subject, including a range of contrasting views and opinions.
Explain	As with describe, but extended to include causation and reasoning.
Identify	Select or ascertain appropriate information and details from a broader range of information or data.
Interpret	Use information or data to clarify or explain something.
Produce	Make or create something.
State	Give short, factual information about something.
Specify	State a fact or requirement clearly and in precise detail.
