Centre Requirements

Centres must be approved to offer this qualification. If your centre is not approved please complete and submit form ProQual Additional Qualification Approval Application.

Staff

Staff delivering this qualification must be appropriately qualified and/or occupationally competent.

Assessors/Internal Quality Assurance

For each competence-based unit centres must be able to provide at least one assessor and one internal quality assurance verifier who are suitably qualified for the specific occupational area. Assessors and internal quality assurance verifiers will need to hold appropriate assessor or verifier qualifications, such as:

- Level 3 Award in Assessing Competence in the Work Environment
- Level 3 Award in Assessing Vocationally Related Achievement
- Level 3 Certificate in Assessing Vocational Achievement
- Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practices
- Level 4 Certificate in Leading the Internal Quality Assurance of Assessment Processes and Practices

Assessors and internal quality assurers must:

- a) be able to provide verifiable evidence of occupational competence, e.g. CVs, references, qualification certificates, CPD records, product evidence, video evidence, to ensure the credibility of assessment decisions;
- b) demonstrate their continuing participation in CPD activities, for example :
 - 'hands on' delivery of relevant services/treatments to fee paying clients in a commercial salon that can be shown to develop individual skill and knowledge levels;
 - undertaking technical training that develops new and/or updates existing skills and/or knowledge levels
 - further relevant qualifications

The following activities will not count towards CPD:

- Reading the trade press and books
- Listening to tapes and watching tapes/DVDs/Internet

Resources

Centres must have access to the range of services, professional products, tools, materials and equipment in the centre or workplace to ensure learners have the opportunity to cover all of the practice activities.

All equipment must meet industry standards and be capable of being used under normal working conditions.

Simulation

The use of head blocks and fake body parts for summative assessment may only be used for the following unit:

K/617/6005 Perm and neutralise hair

Simulation for this unit should only be used once the use of models, peers and clients has been exhausted, the best form of assessment is on a real person. If a head block or fake body part is used in summative assessment the Assessor must record this.

Learning environment

Centres must ensure that access to the range of services or treatments and required professional products, tools, materials and equipment is maintained in the centre and/or workplace to meet the qualification needs and enable learners to cover all of the practical activities.

The learning and assessment setting should:

- incorporate a realistic learning environment which provides learners with experience of working in and under realistic commercial conditions during assessment
- meet any byelaws, legislation, local authority requirements that would affect a similar commercial environment
- meet the requirements of a vocational education establishment

Support for Candidates

Materials produced by centres to support candidates should:

- enable them to track their achievements as they progress through the learning outcomes and assessment criteria;
- provide information on where ProQual's policies and procedures can be viewed;
- provide a means of enabling Internal and External Quality Assurance staff to authenticate evidence

Assessment

This qualification is competence-based, candidates must demonstrate the level of knowledge and competence described in the units. Assessment is the process of measuring a candidate's skill, knowledge and understanding against the standards set in the qualification.

All units will be assessed by:

- practical tasks, and
- knowledge and understanding tasks

Each candidate is required to produce a portfolio of evidence which demonstrates their achievement of all of the practical and knowledge and understanding tasks for each unit.

There must be valid, authentic and sufficient for all the assessment criteria. However, one piece of evidence may be used to meet the requirements of more than one learning outcome or assessment criterion.

The qualifications must be internally assessed by an appropriately experienced and qualified assessor.

Unit information, learning outcomes and assessment criteria can be found from page 9 onwards.

Internal Quality Assurance

An internal quality assurance verifier confirms that assessment decisions made in centres are made by competent and qualified assessors, that they are the result of sound and fair assessment practice and that they are recorded accurately and appropriately.

Adjustments to Assessment

Adjustments to standard assessment arrangements are made on the individual needs of candidates. ProQual's Reasonable Adjustments Policy and Special Consideration Policy sets out the steps to follow when implementing reasonable adjustments and special considerations and the service that ProQual provides for some of these arrangements.

Centres should contact ProQual for further information or queries about the contents of the policy.

Results Enquiries and Appeals

All enquiries relating to assessment or other decisions should be dealt with by centres, with reference to ProQual's Enquiries and Appeals Procedures.

Certification

Candidates who achieve the requirements for qualifications will be awarded:

- A certificate listing all units achieved, and
- A certificate giving the full qualification title -

ProQual Level 2 Diploma in Women's Hairdressing

Claiming certificates

Centres may claim certificates for candidates who have been registered with ProQual and who have successfully achieved the requirements for a qualification. All certificates will be issued to the centre for successful candidates.

Unit certificates

If a candidate does not achieve all of the requirements for a qualification, the centre may claim a unit certificate for the candidate which will list all of the units achieved.

Replacement certificates

If a replacement certificate is required a request must be made to ProQual in writing. Replacement certificates are labelled as such and are only provided when the claim has been authenticated. Refer to the Fee Schedule for details of charges for replacement certificates.

Safety considerations

Client preparation, PPE, COSHH, manufacturers' instructions, client/self positioning, visual checks of electrical equipment, sterilising tools/equipment, first aid procedures, protection from infection and cross infection

Learning Outcome 2

Be able to perm and neutralise hair

Practical skills

The learner can:

1. Communicate and behave in a professional manner
2. Select and use products and techniques, taking into account factors influencing the service
3. Section and wind the hair, taking meshes to suit the perm rod size to achieve the desired look
4. Wind the hair with even tension, making sure all wound perm rods sit on their own base
5. Monitor the development of the perming and neutralising processes, following manufacturers' instructions
6. Leave the hair free of perm lotion when the desired degree of curl is achieved, using water temperature and flow to suit client's needs
7. Follow safe and hygienic working practices
8. Provide suitable aftercare advice

Underpinning knowledge

The learner can:

1. Describe the effects of perm lotions and neutralisers on the hair structure
2. Outline the factors that determine the use of different types of perm lotions and neutralising products, tools and equipment
3. Explain how temperature affects the perming process
4. State the importance of accurate timing and thorough rinsing of products
5. Explain when and why it is important to use pre-perm and post-perm treatments
6. Explain the factors that influence the choice of sectioning techniques and different sized perm rods
7. Explain the method of checking curl development
8. Outline the types and causes of problems that can occur during the perming and neutralising processes and how to resolve them
9. Outline safe and hygienic working practices
10. Describe the aftercare advice that should be provided
11. State how to communicate and behave within a salon environment

Range

Communicate

Speaking, listening, body language, reading, recording, following instructions, using a range of related terminology

Sectioning techniques

9-section, directional, brick
